

Ready, Set, Goals Bulletin Board

Introduction

Achieving a goal has never been so much fun! When students achieve a progress monitoring goal, they'll have the opportunity to punch a cup and find some fun prizes inside!

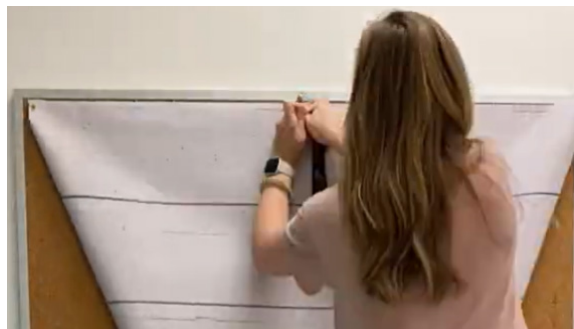

This bulletin board design was developed for Fadeless Paper by Kristin from School and the City.

Materials:

- White Shiplap Fadeless Paper, P0056795
- Black Bordette Decorative Boarder, P0037304
- Sunset Gold Bordette Decorative Boarder, P0037074
- Scissors
- Stapler
- Plastic cups
- Tissue paper
- Rubber bands
- Prizes (candy, erasers, or other trinkets)
- Glue gun

Activity:

1. Cover bulletin board with White Shiplap Fadeless Paper. To do this, first cut enough paper to cover the board. Find the center of the paper you've cut. Roll in edges in and secure at the bottom of the rolls with binder clips. Start securing the paper to the board by stapling at the top center. Roll the paper out to the left or right, stapling as you go.

2. Roll out the remainder of the paper to the other side stapling across the top. Then staple down the sides and bottom, smoothing the paper as you go along. Cut off excess paper around edges.

3. Tape the Black and Sunset Gold Bordette Decorative Borders around the edges of the bulletin board with the scalloped side facing inward.

4. Attach the sign/letters to spell out "Ready, Set, Goal!"

5. Use painter's tape to mark where the prize cups will go. This makes it easy to arrange them evenly.

6. Assemble prize cups. Place a prize in each plastic cup, then cover with a piece of tissue paper and secure with a rubber band.
7. Use a hot glue gun to attach the prize cups to the board on the spots marked with painter's tape.
